and to support tripling of team's reporting capacity.

Strategic Planning and Metrics: Facilitated creation and implementation of an HR department's service delivery strategic plan, including identification of metrics and key performance indicators to help measure department effectiveness.

Data Analytics: Conducted trend analysis and created visualizations using a large organization's workforce data and Oracle PeopleSoft database to inform leadership decision-making on strategic hiring and recruitment, succession planning, retirement incentives, global deployment, and diversity programs.

Requirements and Dashboard Development: Documented requirements for and developed web-based workforce management dashboard to enable a client to successfully measure performance against hiring targets while automating approval processes.

Process Documentation and Interviewing: Conducted client interviews to document and deliver end-to-end process maps to help standardize a financial management division's budgeting, procurement, payment, and accounting practices.

Project Management: Led internal 15-member team in coordination of communications, events, logistics, training, and mentors for the onboarding of 100+ new hires.

Pragmat
War

Web Developer

Cornell University

Jan 2012 – May 2012 • 5 mos

Ithaca, New York Area

Web Development: Developed PHP-based web application to support the creation of standardized course syllabi and reporting of course objectives and skills within the Department of Policy Analysis & Management.

Process Improvement: Saved department faculty approximately 20+ hours per semester by pulling information from previous syllabi and automatically updating dates. Saved department staff approximately 20+ hours per semester by replacing a manual course objective compilation process with automated reports.

General Manager

WVBR 93.5 FM

Sep 2008 – Apr 2012 • 3 yrs 8 mos

Ithaca, NY

General Manager, April 2011-2012

IT Director, April 2010-2011

Web Director, April 2009-2010

Leadership and Project Management: Led 7-member executive team and 50-person volunteer staff in overseeing personnel, management, and business operations for a community-focused 3000-watt commercial radio station.

Alumni Relations and Marketing/Branding: Established alumni relations roles for the organization and built framework for identification of and outreach to over 1000 station alumni. Identification and engagement of these alumni positioned the station to launch a \$935,000 capital campaign in Fall 2012.

Mobile App Strategy: Coordinated launches of new digital platforms for the organization, including iOS and Android applications and a student-focused online radio station, to expand the station's audience, to provide tools applicable to modern technology, and to create new student training opportunities.

Web Development: Redeveloped the station's website by creating a custom CMS and revamped front-end template in order to refresh the organization's online branding/image, add new monetization opportunities, and improve content editing/management processes for staff.

Strategic Investments/Planning & Performance Intern

NASA

Jun 2011 – Aug 2011 • 3 mos

Washington, DC

Process Improvement: Streamlined department's access to project data for 20 science missions by developing and implementing wiki-based knowledge management system.
