Risk Management, Uber Inc.  
555 Market St  
San Francisco, CA 94105

Peggy Peng,

Thank you for taking time out of your day to meet with me. We had spoken over the phone previously, and it was great spending additional time to dive deeper into a discussion around appeasement and refund fraud.

I am extremely passionate about being able to work cross functionally with operational and strategy teams throughout an organization, and I'm glad you shared some of those experiences and opportunities at Uber.

Additionally, thank you for walking me through your background within Uber. During the initial conversations with Amy Chen, she spoke about the passion and energy of the team, and I was extremely encouraged to hear the level of engagement and guidance your leadership provided you on personal development throughout your time at Uber.

Lastly, thank you so much for lunch! Fighting bad guys and potential fraudsters takes a lot of energy, and it was amazing being able to refuel at the company cafeteria.

Sincerely,

*Jason L. Seto*
